Definitions of Measurements Guide

Boots

Calf Circumference

Overall Length

Foot Length

Sole Width
Calf Circumference: Measures the whole way around the rim of the top of the boot
**Overall Length**: Measures the entire length of the boot from the bottom of the heel right up to the top of the boot
Foot Length: Measures from the back of the heel to the middle of the toes along the sole of the boot.
Sole Width: Measures from side to side at the widest part of the sole of the boot.

Trousers

Waist: Measures the whole way around the waistline of the trousers (at full stretch) – Trousers and waist waders are elasticated.

Overall Length: Measures the entire length of the trousers from the bottom of the garment right up to the waistline.

Inside Leg: Measures from the seam where the legs meet in the groin area, down along the inside of the leg to the bottom of the garment.

Hoody
Arm Length   Chest   Overall Length

Arm Length: Measures the length of the arm starting at the seam where the arm and shoulder meet, on the outside of the arm all the way down to the cuff on the sleeve.

Chest: Measures the chest area by checking the distance between the left and right armpit, then double this distance to get the full measurement.

Overall Length: With the garment laid on its front, measure from the middle all the way to the top where the hood is connected to the rest of the garment.
T-Shirt

Arm Length: Measures the length of the arm starting at the seam where the arm and shoulder meet, on the outside of the arm all the way down to the end of the sleeve.

Chest: Measures the chest area by checking the distance between the left and right armpit, then double this distance to get the full measurement.

Overall Length: Measures from the top of the garment (shoulders) to the bottom of the T-Shirt.
Bib & Brace

Overall Length: Measures from the top of the garment where the chest line is all the way down to the bottom of the leg.

Chest: Measures the chest area by checking the distance between the left and right armpit, then double this distance to get the full measurement.

Inside Leg: Measures from the seam of the crotch where the legs meet, measuring down the inside of the leg, all the way down to the cuff of the leg.

Jacket / Smock

Arm Length: Measures the length of the arm starting at the seam where the arm and shoulder meet, on the outside of the arm all the way down to the cuff on the sleeve.

Chest: Measures the chest area by checking the distance between the left and right armpit, then double this distance to get the full measurement.

Overall Length: With the garment laid on its front, measure from the bottom of the garment, in the middle all the way to the top where the shoulder line is.

Thigh Waders
Thigh Circumference

Calf Circumference
